## 1: UNDESIRED BEHAVIORS

List what you see. These are behavioral **responses** to difficult triggers, situations, or expectations.

Yells at her brother and parents, ignores people, refusal, rips up homework

| X   | \             |
| _   |               |

## 2: PROBLEMS TO BE SOLVED

List the situations when the undesired behaviors occur. These are also known as expectations, triggers, or antecedents. Identify the Problem as **specifically** as possible. **Use more lines as needed.** 

| The Problem to Be Solved                          | Need info? | Plan<br>A/B/C | What will Plan A/C look like?   |
|---|------------|---------------|---|
| Making the bed before school                      |            | С             | We will make the bed if it's not made   |
| ELA homework writing assignments                  |            | С             | Prompt to do the work but let it go it's not done and the let the teacher manage it |
| Playing Monopoly during family game nights        |            | В             | Dad will take on  |
| When the dog barks at our neighbor and won't stop |            | С             | We will put the dog in the yard when it barks and not make comments to our child    |
| Going to her grandparents for Sunday dinner       |            | B/C           | Mom to Plan B. Until then grandparents come to our house for Sunday dinner          |
| Bedtime at grandparents                           | <b>✓</b>   | С             | Hold off on sleepovers until we can find out what expectations are not being met    |
| Going on websites with adult content              |            | A             | Set parental controls for all devices   |
|   |            |               |   |
|   |            |               |   |

## 3: THINKING SKILLS

Check the skills you believe the individual struggles with and that are making it hard for them to handle specific triggers and expectations. Keep in mind the individual's cultural background when assessing thinking skills. Check as many as apply, but do not obsess – this is your best guess!

|   | Language & Communication Skills  | >  | \$                                    | Cognitive Flexibility Skills  |
|---|--|--|---------------------------------------|---|
| <ul> <li>☐ Understanding what others are saying</li> <li>☐ Following the flow of conversations</li> <li>☐ Quickly understanding people who are talking</li> <li>☐ Saying what they are thinking or what they need</li> <li>☐ Saying what's bothering them</li> <li>☐ Saying what they are feeling</li> <li>☐ Quickly finding the words they need</li> </ul> Attention & Working Memory Skills |  | <ul> <li>☐ Handling changing from one activity to another</li> <li>☐ Understanding that things can be "kind of" rather than all one way or all the other way; seeing "shades of gray" rather than only "black and white"</li> <li>☐ Imagining different ways things could happen in the future</li> <li>☑ Handling changes to a routine or rule</li> <li>☐ Handling new situations or unclear answers (e.g., "I don't know.")</li> </ul> |                                       |   |
|   | Sticking with things that need a lot of attention Doing things in order Keeping track of time Thinking about more than one thing at a time Staying focused during activities Ignoring distractions   |  | or s<br>Und                           | anging their mind if offered a different idea solution derstanding why a plan may need to change t taking things too personally, exaggerating, thinking things are worse than they are  Social Thinking Skills  |
